NHS 220h Standard Line

NHS 220 is by far the most popular NHS woodchipper in the range. The *h*-model is delivered with Mikrokit (3-7 mm. blade projection)

The high-tensile steel ensures a solid and robust construction that does not compromise agility. Despite the strong exterior, the machine has a modest total weight.

The woodchipper has internal hydraulics, NHS InfoCon (Anti-stress, hourcounter and service planner.) In addition to a superior capacity, it also delivers a unique chip quality.

The NHS 220 comes with a large selection of additional equipment.
